

Erma (black and white) was adopted from PAS in February of 2007. She had been surrendered with her brother (who had already been adopted) by someone who could no longer care for them. Erma loves to be the queen of the household and keep all her subjects in line. This includes picking out her own food!

Bonnie and Clyde are siblings adopted in July 2008. They were from a litter of 5 picked up as kittens in Parsippany. They are very sweet and love to lie in the cat tree and watch birds. They also love to play with their toys, each other, the laser & anything else that moves! All three are a joy to have and bring me many hours of happiness.
